# Welcome to Harewood

Welcome to Harewood Speed Hillclimb for the climax of the BARC Harewood Speed Hillclimb Championship.

Round 9 on Saturday and round 10 on Sunday should provide an exciting final two days of competition for the 2021 Championship. Adam Riley has an impressive lead over Chris Berrisford and Bob Bellerby but what will happen when dropped scores take effect? Who can get close or break their respective class records?

The Fastest Time of the Day FTD Award Series is still to be decided with only 4 points in it. The GWR Raptor single seater racing car of Richard Spedding leads after strong scores and will be favourite for the final FTD of the season, but has he done enough rounds to count? Can John Prickett catch Richard if he scores well on both rounds?

This weekend also provides the best in one-make racing with a splendid array of MG, Alpine Renault, Austin 7, 500's, Westfield and Jaguar cars competing both days.

We wish all competitors, marshals and spectators a safe and enjoyable weekend of speed hillclimbing at Harewood.

We hope to see you next season for the best hillclimbing in the North of England!

# Championships

## BARC Harewood Speed Hillclimb Championship

### Main championship

Marking is within classes, based on the improvement against the bogey time. The bogey times are the current class record at the start of each meeting with 20 seconds added, with the exception of classes 1A, 1C, 2A, 2B, 2D, 6A, 6B and 6C which are calculated. Championship marks are gained at the rate of 0.01 points for each 0.01 seconds by which the driver beats the bogey time of his or her class. A maximum of 21 marks can be gained at any meeting.

Any competitor who does not beat the bogey time will gain no marks for that meeting. The three timed runs at each meeting will count, unless a decision to the contrary is made after the first timed run. Marks in seven of the ten rounds will count towards the championship result (Note: The 5 June and 4 July meetings are not rounds of the Harewood Speed Hillclimb Championship).

### Fastest time of the day

At each meeting marks will be awarded to the championship competitors who have recorded the ten fastest times of the day in the class runs. Marks will be awarded on the scale of 10 for the fastest competitor down to 1 mark for the tenth.

### Harewood Championship Positions after round 8

Position	Name	Points
1	Adam Riley	138.37
2	Chris Berrisford	127.01
3	Robert Bellerby	122.81

### Harewood FTD Awards Series Positions after round 8

Position	Name	Points
1	Richard Spedding	46
2	John Prickett	42
3	Robert Bellerby	30

# What is speed hillclimbing?

The challenge of *Speed Hillclimbing* is to drive the course in the shortest possible time. The faster drivers are those who can get the car off the start quickly, the first 64 feet can take under two seconds, and then find the quickest and smoothest lines through each corner. The fastest cars can complete the 1448 metre course in under 50 seconds, with speeds exceeding 130 mph!

A timing strut

Cars are called down to the start in class order. Where a car is shared by another driver, the second driver (their numbers will start with a 7,8 or 9), will go down to the start in the batch before the other driver. The entries are divided into classes, so that similar cars compete against each other. Each driver not only competes in his or her own race against the clock, but also against other drivers in cars of similar performance.

Each car carries a small vertical blade at the front called a timing strut. As a car approaches the start, the marshals line the car up immediately behind the timing beam. A chock behind the rear wheel keeps the car in the right position. When the driver is given the green light, they start in their own time. As the car moves forward it breaks the light beam and starts the electronic timing equipment.

At the finish line there is another light beam that stops the digital timing equipment for that driver's run. In addition to the start and finish

timing beams, there are others that allow the driver to see their 'split' times at given points on the course after their run. These times are shown on the monitors in the Paddock Office entrance and also used by the commentator (see map for location of split time points).

If a car stops, slows or comes off the course, the marshals may show a red flag. This warns following drivers of a potential hazardous situation ahead. As a result a car may have to abandon a run through no fault of the driver and so will be given a re-run. If the red flag is given before Orchard the driver will return to the start via the road behind the barn. Otherwise the driver will continue to the finish, at a slower speed, then go down to the start via the slip road, to take the re-run.

Up to four cars can be on the hill at any one time. Timing is to the nearest one-hundredth of a second, a tiny amount, but one that can often decide a class win.

The ultimate achievement at each event is to establish the Fastest Time of the Day (FTD). This is usually claimed by one of the single seater racing cars, although wet weather can sometimes throw up an occasional surprise!

At the start – note the the marshal holding the wheel chock to stop the car rolling back
