Welcome to Harewood

Harewood welcomes drivers from around the country competing in the British Hillclimb Championships, two rounds of Porsche Club Speed Championships and BARC Connaught Speed Championships this weekend, alongside round 4 of the BARC Harewood Championship on Saturday.

Adam Riley leads the BARC Harewood Championship in his Honda S2000 with Rob Spedding 6.78 points behind in his Vector TF93K, with Terry Deere close behind in the Talbot Sunbeam Lotus. The FTD Award Series is led by John Prickett and David Tatham.

The Motorsport UK British Hillclimb Championship presented by Avon Tyres returns to Harewood for the second time this year. Alex Summers has an 11 point lead in his powerful DJ Firestorm, ahead of Wallace Menzies and Scott Moran. In May the Hill Records was broken a number of times and if the weather is good it could fall again. Wallace Menzies is the current Hill Record Holder and Nicola Menzies holds the Ladies Hill Record.

The two run-offs for British Hillclimb Championship points will form the highlights of Sunday's competition but expect stirring action too within the individual classes including the competitive Porsche and BARC Connaught Championships. If the weather is good several class records also could fall.

The Motorsport UK BHC Cup presented by Footman James follows the British series around the UK and the top drivers are all competing at Harewood today. The Championship is currently led by Alex Coles in his first season, from Richard Spedding and Johnathen Varley.

It all adds up to an exciting and competitive weekend's motorsport – we hope you enjoy it!

Championships

BARC Harewood Speed Hillclimb Championship

Main championship

Marking is within classes, based on the improvement against the bogey time. The bogey times are the current class record at the start of each meeting with 20 seconds added, with the exception of classes 1A, 2A, 2B, 2D, 6A, 6B and 6C which are calculated. Championship marks are gained at the rate of 0.01 points for each 0.01 seconds by which the driver beats the bogey time of his or her class. A maximum of 21 marks can be gained at any meeting.

Any competitor who does not beat the bogey time will gain no marks for that meeting. Marks in six of the nine rounds will count towards the championship result (Note: The 8 May, 4 June and 3 July meetings are not rounds of the Harewood Speed Hillclimb Championship).

Fastest time of the day

At each meeting marks will be awarded to the championship competitors who have recorded the ten fastest times of the day in the class runs. Marks will be awarded on the scale of 10 for the fastest competitor down to 1 mark for the tenth.

Harewood Championship Positions after round 3

ON ROAD. ON TRACK. **ON AVONS.**

A photograph of a red Caterham sports car with white racing stripes and the number '7' on the front. The car is parked in a garage or pit lane. A driver in a white racing suit and helmet is standing next to the car, looking at his phone. The background shows a garage with 'CATERHAM' branding and several 'AVON Tyres' banners. The car has 'AVON' written on the tires and 'CATERHAM' on the side. The overall scene is lit with dramatic, low-key lighting.

THE BRITISH AUTOMOBILE RACING CLUB
PROMOTING

BRITISH

MOTORSPORT TALENT

1912

Originally established as the Junior Car Club for those speed enthusiasts of the day, they became the British Automobile Racing Club in 1948 and now have over 100 years' experience in motorsport event organising.

Associated championships include: Kwikfit British Touring Car Championship, Toyo Tires Motorsport UK British Rallycross Championship, British Schools Karting Championship and the British Hillclimb Championship

BARC is associated with 39 championships and has five centres; Midlands, North Western, South Western, Wales and Yorkshire with another in Ontario, Canada

BARC is also proud to be organisers of several prestigious events, including the Goodwood Members Meeting, Festival of Speed, Revival Meeting, rounds of the FIA World Endurance, World Rallycross Championship and Coventry Motofest

Three race venues to our name; Croft, Pembrey and Thruxton Circuits and two hillclimb venues; Gurston Down and Harewood Hill

BARC offers driver and public membership with many benefits. On offer is a large range of clubwear and corporate clothing with many gifts and souvenirs to make your membership complete

Alex Summers stunned Goodwood on Saturday at the Festival of Speed with a time inside the official Hill Record in the McMurtry Spéirling electric car. He qualified the car, allowing teammate Max Chilton to reset the record in Sunday's Shoot Out.

Congratulations from all at BARC. Some of us were privileged to see it first hand. If you didn't, check it out on YouTube!

Each class run at the Motorsport UK Championship meeting act as a qualifying run. Each qualifying/class run dictates which British Championship drivers get in to the Top 12 run-offs and what sequence they run in. There are two qualifying/class runs and two Top 12 run-offs at today's meeting. The tables below allows you to keep track of driver's times in the run-offs.

Explaining the classes

Here is a layman's guide to what the categories mean to help you understand what is going on. However, this is not a definitive set of rules – these run to numerous pages of fine print in the Motorsport UK Competitors' Yearbook ("the Blue Book").

Road modified

Not less than 1000 of these saloon & sports cars must have been built each year. For kit cars etc this is 20 per year, but over 5000 of the basic engines must have been produced. These cars must be road going cars e.g. have tax and an MOT where applicable. Limited changes can be made to the body e.g. some parts e.g. the bonnet and boot may be replaced by other materials, but glass cannot be replaced by other materials. The basic silhouette of the car must remain, although some limited aerodynamic devices can be added. Interior trim must remain and all standard equipment must work. The engine may be modified, within limits. Tyres are limited to road going tyres from defined lists.

Modified production cars

Not less than 100 of these vehicles must have been made available through commercial channels in a twelve month period. The silhouette above the hub centres must remain unaltered, except for the bonnet and boot which may be modified. The bodywork may be made of different materials to the standard, but must maintain the original shape. The side and rear windows may be replaced with plastic. Modified front and rear spoilers/air dams are permitted. The engine must be identifiable as that fitted to the original model, but extensive modifications are allowed. Suspension changes are allowed with limitations. Slick racing tyres may be used.

Formula Ford

Formula Ford cars are cars built for a specific race series to ensure tight competition and to make sure that it is driver ability that shines through and not the size of their wallets. Harewood regulations stipulate that cars in this class must be built before 1994. The means that the engines are all Ford Kent type engines. Engine modifications are very tightly controlled/limited, as are suspension changes etc. No aerodynamic wings are allowed and tyres are also limited.

Sports Libre

Libre in French means free. In this category of cars the competitor is free to make a wide range of modifications and enter a wide range of cars not covered by other categories e.g. World rally cars, hillclimb supersport cars, GT1 sports cars etc. Tyre choice is open to the competitor.

Racing cars

Single seat open wheel race cars. There is no minimum level of production. Engine choice and modifications are not limited. Aerodynamic devices are also allowed. Tyre choice is open to the competitor.

Hill Records

The first Harewood meeting took place on 16 September 1962.
