### Foreword

What a contrast we have at Harewood this weekend. Saturday's event offers the best of club motorsport with round 3 of the *Oms* Racing Harewood *Speed* Hillclimb Championship.

Competitors, driving a variety of cars ranging from modern road cars to single seater racing cars, will be trying to beat their class targets for championship points as well as their rivals.

On Sunday a fine array of classic and vintage cars will make a walk round the paddock as exciting as the action on the track. The event gets underway with classic Ginettas, Morgans and Austins 7's, followed by a large entry of vintage road and racing cars.

Despite their age, the quickest of these will be pushing the more modern Brabham racing cars for Fastest Time of the Day, but the biggest noise is sure to come from the massive 27 litre aero engined Hispano Delage.

We hope you enjoy this weekend of motorsport at Harewood *Speed* Hillclimb, whether driving, spectating or marshalling.

#### Tim Wilson Chairman, BARC Yorkshire Centre

#### Jurisdiction

The meeting is governed by the General Regulations of the Motor Sports Association Ltd (incorporating the provisions of the International Sporting Code of the FIA) and the Supplementary Regulations issued for the event, the Harewood *Speed* Hillclimb Entry forms, event and championship regulations booklet 2009, the BARC Speed Event Classes 2009 and any written instructions the BARC Yorkshire Centre may issue for the event.

#### The programme

The organisers have made every effort to ensure the accuracy of the programme and accept all contributed materials in good faith. If there are any errors or omissions then we apologise for them escaping our attention. Whilst every attempt will be made to adhere to the published programme, the organisers reserve the right to modify, curtail or abandon the meeting.

#### Food & drink

Food and drink is available in close to the paddock area. A licensed bar and ice cream is usually available.

#### Litter

Will spectators please help the club by not dropping litter. Please use the containers provided and keep Harewood beautiful. Large items can be disposed of in the skip near the toilet block.

#### Lost property & messages

If you find any articles or lose anything please report it to the Paddock Office. We regret that we cannot make announcements over the PA system, except in genuine emergencies.

#### Acknowledgements

BARC Yorkshire Centre would like to thank Harewood Hill Ltd and those who subscribe to the shares which enables the long-term future of our events here. We also wish to thank West Yorkshire Police, Pennine Rescue, Pennine LRC, Yorkshire Ambulance Service for emergency services, The Crusty Pie Company, the marshals, the photographers who have allowed us to use their photographs, everyone who has helped or are helping and club members for making the event a success.

#### Your personal safety

We take your safety seriously. Please take note of any signs or instructions given by our marshals. They are there to help the meeting run without a hitch.

Remember you have a duty of care for you own safety and that of any children. Children under 14 must be accompanied and remain under the control of an adult at all times.

On behalf of the BARC Yorkshire Centre, we welcome you all to the 2009 Harewood Speed Hillclimb season.

#### Our sponsors and advertisers

BARC Yorkshire Centre would like to thank all our sponsors and advertisers for their generous support, which helps us continually invest in our events and the venue. Our sponsors and advertisers are supporting Harewood *Speed* Hillclimb, so please support them with your business.

#### **Contacts for BARC Yorkshire Centre**

### What is speed hillclimbing?

The challenge of *Speed* Hillclimbing is to drive the course in the shortest possible time. The faster drivers are those who can get the car off the start quickly, the first 64 feet can take under two seconds, and then find the quickest and smoothest lines through each corner. The fastest cars can complete the 1448 metre course in under 50 seconds, with speeds exceeding 130 mph!

Cars are called down to the start in class order. Where a car is shared by another driver, the second driver (their numbers will start with a 7 or 9), will go down to the start in the batch before the other driver. The entries are divided into classes, so that similar cars compete against each other. Each driver not only competes in his or her own race against the clock, but also against other drivers in cars of similar performance.

Each car carries a small vertical blade at the front called a timing strut. As a car approaches the start, the marshals line the car up immediately behind the timing beam. A chock behind the rear wheel keeps the car in the right position. When the driver is given the green light, they start in their own time. As the car moves forward it breaks the light beam and starts the electronic timing equipment.

At the finish line there is another light beam that stops the digital timing equipment for that driver's run. In addition to the start and finish timing beams, there are others that allow the driver to see their 'split' times at given points on the course after their run. These times are shown on the bank of monitors at the rear of the paddock office and used by the commentators (see map for location of split time points).

If a car stops, slows or comes off the course, the marshals may show a red flag. This warns following drivers of a potential hazardous situation ahead. As a result a car may have to abandon a run through no fault of the driver and so will be given a re-run. If the red flag is given before Orchard the driver will return to the start via the road behind the barn. Otherwise the driver will continue to the finish, at a slower speed, then go down to the start via the slip road, to take the re-run.

Up to four cars can be on the hill at any one time. Timing is to the nearest one-hundredth of a second, a tiny amount, but one that can often decide a class win.

The ultimate achievement at each event is to establish the Fastest Time of the Day (FTD). This is usually claimed by one of the single seater racing cars, although wet weather can sometimes throw up an occasional surprise!

At the start – note the the marshal holding the wheel chock to stop the car rolling back

### **Explaining the classes**

Here is a layman's guide to what the categories mean to help you understand what is going on. However, this is not a definitive set of rules – these run to numerous pages of fine print in the Motor Sports Association Competitors' Yearbook ("the Blue Book").

#### Road modified

Not less than 1000 of these saloon & sports cars must have been built each year. For kit cars etc this is 20 per year, but over 5000 of the basic engines must have been produced. These cars must be road going cars e.g. have tax and an MOT where applicable. Limited changes can be made to the body e.g. some parts e.g. the bonnet and boot may be replaced by other materials, but glass cannot be replaced by other materials. The basic silhouette of the car must remain, although some

limited aerodynamic devices can be added. Interior trim must remain and all standard equipment must work. The engine may be modified, within limits. Tyres are limited to road going tyres from defined lists.

#### Modified production cars

Not less than 100 of these vehicles must have been made available through commercial channels in a twelve month period. The silhouette above the hub centres must remain unaltered, except for the bonnet and boot which may be modified. The bodywork may be made of different materials to the standard, but must maintain the original shape. The side and rear windows may be replaced with plastic. Modified front and rear spoilers/air dams are permitted. The engine must be identifiable as that

fitted to the original model, but extensive modifications are allowed. Suspension changes are allowed with limitations. Slick racing tyres may be used.

#### Formula Ford

Formula Ford cars are cars built for a specific race series to ensure tight competition and to make sure that it is driver ability that shines through and not the size of their wallets. Harewood regulations stipulate that cars in this class must be built before 1994. The means that the engines are all Ford Kent type engines. Engine modifications are very tightly controlled/limited, as are suspension changes etc. No aerodynamic wings are allowed and tyres are also limited.

#### **Sports Libre**

Libre in French means free. In this category of cars the competitor is free to make a wide range of modifications and enter a wide range of cars not covered by other categorise e.g. World rally cars, hillclimb supersport cars, GT1 sports cars etc. Tyre choice is open to the competitor.

Racing cars

Single seat open wheel race cars. There is no minimum level of production. Engine choice and modifications are not limited. Aerodynamic devices are also allowed. Tyre choice is open to the competitor.

### Performance

Leeds city centre to Manchester airport: £80.00

#### Harewood Speed Hillclimb Championship

#### Main championship

Marking is within classes, based on the improvement against the bogey time. The 2009 bogey times are the current class record at the start of each meeting with 18 seconds added. Championship marks are gained at the rate of 0.01 points for each 0.01 seconds by which the driver beats the bogey time of his or her class. A maximum of 20 marks can be gained at any meeting.

Any competitor who does not beat the bogey time will gain no marks for that meeting. The three timed runs at each meeting will count, unless a decision to the contrary is made after the first timed run. Marks in six of the eight rounds will count towards the championship result (Note: The 10th May, 7th June and 4th/5th July meetings are not rounds of the Harewood *Speed* Hillclimb Championship).

#### Fastest time of the day

At each meeting marks will be awarded to the championship competitors who have recorded the ten fastest times of the day in the class runs. Marks will be awarded on the scale of 10 for the fastest competitor down to 1 mark for the tenth.

#### Oms Racing Harewood Speed Hillclimb Championship

Positions after round 2

Pos	Name	Total
1	Paul Martin	35.82
2	David Sturdy	35.41
3	Richard Vale	34.19

#### FTD Championship

### Ladies Driving School

On 13 August 2009 there is a special Ladies Driving School day at Harewood where all proceeds will go to Marie Curie Cancer Care.

All parties are giving their services free to ensure that all income will go to Marie Curie.

Anyone interested in taking part needs to register and pay a  $\pm 25$  deposit which will go to Marie Curie.

Upon registration a "donation" pack will be sent and once this is returned with a minimum £200 pledge to Marie Curie a place at the school will be allocated.

Bookings for driving schools fill fast and as there are only 30 places at each school, please don't delay securing your place.

> If you would like to book please contact Jackie Wilson on 01423 339062 or email school@harewood-hill.co.uk

### Would you like to be involved?

Why not become a marshal, have some fun and get closer to the action?

Join the Harewood Marshals team and meet a really friendly bunch of people who have one thing in common, they are all motor sport nuts!

For more information on becoming a marshal or joining the Harewood Marshals Association contact;

Mike Shorley Chief Marshal phone: 01977 780035 email: mshorley@hotmail.com

Keith Davison Assistant Chief Marshal email: keith.davison@btinternet.com

Without our marshals and officials we have no motor sport
