Foreword

What a contrast we have at Harewood this weekend. Saturday offers a fine array of classic and vintage cars which will make a walk round the paddock as exciting as the action on the track. The event gets underway with classic Austin 7's, followed by a good entry of vintage road and racing cars.

Despite their age, the quickest of these will be pushing the more modern Brabham racing cars for Fastest Time of the Day, watch out for James Baxter in the 3.5 litre Frazer Nash.

Sunday's event offers the best of club motorsport with round 3 of the Harewood Speed Hillclimb Championship. Two quick Westfield drivers, Simon Green and Henry Moorhouse will provide some spectacular driving as they compete for the Championship lead.

We hope you enjoy this weekend of motorsport at Harewood *Speed* Hillclimb, whether driving, spectating or marshalling.

Tim Wilson

Chairman, BARC Yorkshire Centre

Explaining the classes

Here is a layman's guide to what the categories mean to help you understand what is going on. However, this is not a definitive set of rules – these run to numerous pages of fine print in the Motor Sports Association Competitors' Yearbook ("the Blue Book").

Road modified

Not less than 1000 of these saloon & sports cars must have been built each year. For kit cars etc this is 20 per year, but over 5000 of the basic engines must have been produced. These cars must be road going cars e.g. have tax and an MOT where applicable. Limited changes can be made to the body e.g. some parts e.g. the bonnet and boot may be replaced by other materials, but glass cannot be replaced by other materials. The basic silhouette of the car must remain, although some

limited aerodynamic devices can be added. Interior trim must remain and all standard equipment must work. The engine may be modified, within limits. Tyres are limited to road going tyres from defined lists.

Modified production cars

Not less than 100 of these vehicles must have been made available through commercial channels in a twelve month period. The silhouette above the hub centres must remain unaltered, except for the bonnet and boot which may be modified. The bodywork may be made of different materials to the standard, but must maintain the original shape. The side and rear windows may be replaced with plastic. Modified front and rear spoilers/air dams are permitted. The engine must be identifiable as that

fitted to the original model, but extensive modifications are allowed. Suspension changes are allowed with limitations. Slick racing tyres may be used.

Formula Ford

Formula Ford cars are cars built for a specific race series to ensure tight competition and to make sure that it is driver ability that shines through and not the size of their wallets. Harewood regulations stipulate that cars in this class must be built before 1994. This means that the engines are all Ford Kent type engines. Engine modifications are very tightly controlled/limited, as are suspension changes etc. No aerodynamic wings are allowed and tyres are also limited.

Sports Libre

Libre in French means free. In this category of cars the competitor is free to make a wide range of modifications and enter a wide range of cars not covered by other categories e.g. World rally cars, hillclimb supersport cars, GT1 sports cars etc. Tyre choice is open to the competitor.

Racing cars

Single seat open wheel race cars. There is no minimum level of production. Engine choice and modifications are not limited. Aerodynamic devices are also allowed. Tyre choice is open to the competitor.

Championships

BARC Harewood *Speed* Hillclimb Championship

Main championship

Marking is within classes, based on the improvement against the bogey time. The 2011 bogey times are the current class record at the start of each meeting with 18 seconds added. Championship marks are gained at the rate of 0.01 points for each 0.01 seconds by which the driver beats the bogey time of his or her class. A maximum of 20 marks can be gained at any meeting.

Any competitor who does not beat the bogey time will gain no marks for that meeting. The three timed runs at each meeting will count, unless a decision to the contrary is made after the first timed run. Marks in six of the eight rounds will count towards the championship result (Note: The 15th May, 4th June and 2nd/3rd July meetings are not rounds of the Harewood *Speed* Hillclimb Championship).

Fastest time of the day

At each meeting marks will be awarded to the championship competitors who have recorded the ten fastest times of the day in the class runs. Marks will be awarded on the scale of 10 for the fastest competitor down to 1 mark for the tenth.
