Welcome to Harewood

Welcome to the Harewood Speed Hillclimb for a weekend packed with British hillclimbing at its best.

Competitors in the Harewood Speed Hillclimb Championship have 2 chances to score points this weekend with separate events on Saturday and Sunday, both with full entries. Peugeot 205 driver Deryck Jones, leads the Championship from Sarah Bosworth and Ian Butcher.

Who will be fastest overall this weekend? Ed Carter is just ahead of Dave Banner with Ben Tranter in 3rd place.

Over the weekend we have an impressive array of British sportscars including the return of the popular Paul Matty Lotus Championship on Saturday. A large class of Austin Healeys and several classes of Caterham Sevens competing on both days. The 20 odd strong group of Caterhams is competing in the Lotus 7 Club Speed Championship and sure to provide plenty of close racing and a few spins!

We also host the Fueled Society on Sunday, an impressive display of modified, customised and well-presented road cars..... Well worth a visit.

So whether you are competing, marshalling or spectating, we hope you have a great weekend of hillclimbing at Harewood.

Tim Wilson,
Chairman, BARC Yorkshire Centre

What is speed hillclimbing?

The challenge of Speed Hillclimbing is to drive the course in the shortest possible time. The faster drivers are those who can get the car off the start quickly, the first 64 feet can take under two seconds, and then find the quickest and smoothest lines through each corner. The fastest cars can complete the 1448 metre course in under 50 seconds, with speeds exceeding 130 mph!

A timing strut

Cars are called down to the start in class order. Where a car is shared by another driver, the second driver (their numbers will start with a 7, 8 or 9), will go down to the start in the batch before the other driver. The entries are divided into classes, so that similar cars compete against each other. Each driver not only competes in his or her own race against the clock, but also against other drivers in cars of similar performance.

Each car carries a small vertical blade at the front called a timing strut. As a car approaches the start, the marshals line the car up immediately behind the timing beam. A chock behind the rear wheel keeps the car in the right position. When the driver is given the green light, they start in their own time. As the car moves forward it breaks the light beam and starts the electronic timing equipment.

At the finish line there is another light beam that stops the digital timing equipment for that driver's run. In addition to the start and finish

timing beams, there are others that allow the driver to see their 'split' times at given points on the course after their run. These times are shown on the monitors in the Paddock Office entrance and also used by the commentator (see map for location of split time points).

If a car stops, slows or comes off the course, the marshals may show a red flag. This warns following drivers of a potential hazardous situation ahead. As a result a car may have to abandon a run through no fault of the driver and so will be given a re-run. If the red flag is given before Orchard the driver will return to the start via the road behind the barn. Otherwise the driver will continue to the finish, at a slower speed, then go down to the start via the slip road, to take the re-run.

Up to four cars can be on the hill at any one time. Timing is to the nearest one-hundredth of a second, a tiny amount, but one that can often decide a class win.

The ultimate achievement at each event is to establish the Fastest Time of the Day (FTD). This is usually claimed by one of the single seater racing cars, although wet weather can sometimes throw up an occasional surprise!

Explaining the classes

Here is a layman's guide to what the categories mean to help you understand what is going on. However, this is not a definitive set of rules – these run to numerous pages of fine print in the Motor Sports Association Competitors' Yearbook ("the Blue Book").

Road modified

Not less than 1000 of these saloon & sports cars must have been built each year. For kit cars etc this is 20 per year, but over 5000 of the basic engines must have been produced. These cars must be road going cars e.g. have tax and an MOT where applicable. Limited changes can be made to the body e.g. some parts e.g. the bonnet and boot may be replaced by other materials, but glass cannot be replaced by other materials. The basic silhouette of the car must remain, although some limited aerodynamic devices can be added. Interior trim must remain and all standard equipment must work. The engine may be modified, within limits. Tyres are limited to road going tyres from defined lists.

Modified production cars

Not less than 100 of these vehicles must have been made available through commercial channels in a twelve month period. The silhouette above the hub centres must remain unaltered, except for the bonnet and boot which may be modified. The bodywork may be made of different materials to the standard, but must maintain the original shape. The side and rear windows may be replaced with plastic. Modified front and rear spoilers/air dams are permitted. The engine must be identifiable as that fitted to the original model, but extensive modifications are allowed. Suspension changes are allowed with limitations. Slick racing tyres may be used.

Formula Ford

Formula Ford cars are cars built for a specific race series to ensure tight competition and to make sure that it is driver ability that shines through and not the size of their wallets. Harewood regulations stipulate that cars in this class must be built before 1994. The means that the engines are all Ford Kent type engines. Engine modifications are very tightly controlled/limited, as are suspension changes etc. No aerodynamic wings are allowed and tyres are also limited.

Sports Libre

Libre in French means free. In this category of cars the competitor is free to make a wide range of modifications and enter a wide range of cars not covered by other categories e.g. World rally cars, hillclimb supersport cars, GT1 sports cars etc. Tyre choice is open to the competitor.

Racing cars

Single seat open wheel race cars. There is no minimum level of production. Engine choice and modifications are not limited. Aerodynamic devices are also allowed. Tyre choice is open to the competitor.

Championships

BARC Harewood Speed Hillclimb Championship

Main championship

Marking is within classes, based on the improvement against the bogey time. The 2018 bogey times are the current class record at the start of each meeting with 20 seconds added, with the exception of classes 1A, 1B, 1C, 1D, 1F, 2A, 2B and 2D which are calculated. Championship marks are gained at the rate of 0.01 points for each 0.01 seconds by which the driver beats the bogey time of his or her class. A maximum of 21 marks can be gained at any meeting.

Any competitor who does not beat the bogey time will gain no marks for that meeting. The three timed runs at each meeting will count, unless a decision to the contrary is made after the first timed run. Marks in six of the eight rounds will count towards the championship result (Note: The 13 May, 2 June and 8 July meetings are not rounds of the Harewood Speed Hillclimb Championship).

Fastest time of the day

At each meeting marks will be awarded to the championship competitors who have recorded the ten fastest times of the day in the class runs. Marks will be awarded on the scale of 10 for the fastest competitor down to 1 mark for the tenth.

Harewood Championship Positions after round 3		
Pos	Name	Points

JCT600 BROOKLANDS ARE PROUD TO SUPPORT THE HAREWOOD SPEED HILLCLIMB

When Enzo Ferrari formed Scuderia Ferrari in 1929, his sole purpose was to prepare and field top racing cars for gentleman drivers. Since those early days, history has seen Ferrari climb to the pinnacle of motor racing, as well as becoming one of the most prestigious and iconic car manufacturers in the world.

Winners start at the top. It's the only place to be.

ARE YOU INTERESTED IN THE HISTORY OF THE BARC YORKSHIRE CENTRE

The website www.harewoodhillhistory.co.uk attempts to cover the Centres activities from 1962 onwards listing the Events together with the associated Entries, Programmes, Results and Photographs. Copies of the regular Centre magazines are also available.

There are many gaps and we are interested in having items loaned to us so that they can be incorporated into the digital archive. All materials will be copied and returned to the lender.

We are also interested in having items donated so that they will be part of the physical archive as well as part of the digital archive.

Would you like to be involved?

Why not become a marshal, have some fun and get closer to the action?

Join the Harewood Marshals team and meet a really friendly bunch of people who have one thing in common, they are all motor sport nuts!

For more information on becoming a marshal or joining the Harewood Marshals Association contact;

Jurisdiction

The meeting is held under the General Regulations of the Motor Sports Association (incorporating the provisions of the International Sporting Code of the FIA) and the Supplementary Regulations issued for the event, the Harewood *Speed* Hillclimb Entry forms, event and championship regulations 2018, the BARC *Speed* Event Classes 2018 and any written instructions the BARC Yorkshire Centre may issue for the event.

The programme

The organisers have made every effort to ensure the accuracy of the programme and accept all contributed materials in good faith. If there are any errors or omissions then we apologise for them escaping our attention. Whilst every attempt will be made to adhere to the published programme, the organisers reserve the right to modify, curtail or abandon the meeting.

Drones

The launching or over-flying of drones on these premises is strictly forbidden.

Food & drink

Food and drink is available in the paddock area. Ice cream is usually available.

Litter

Will spectators please help the club by not dropping litter. Please use the containers provided and keep Harewood beautiful. Large items can be disposed of in the skip near the toilet block.

Lost property & messages

If you find any articles or lose anything please report it to the Paddock Office. We regret that we cannot make announcements over the PA system, except in genuine emergencies.

Acknowledgements

BARC Yorkshire Centre would like to thank Harewood Hill Ltd and those who subscribe to the shares which enables the long-term future of our events here. We also wish to thank West Yorkshire Police, Teesside and North Yorkshire Ambulance Service for emergency services, the marshals, the photographers who have allowed us to use their photographs, everyone who has helped or are helping and club members for making the event a success.

Your personal safety

We take your safety seriously. Please take note of any signs or instructions given by our marshals. They are there to help the meeting run without a hitch.

Remember you have a duty of care for your own safety and that of any children. Children under 14 must be accompanied and remain under the control of an adult at all times.

Thanks to our supporters

BARC Yorkshire Centre would like to thank all our sponsors and advertisers for their generous support, which helps us continually invest in our events and the venue. Our sponsors and advertisers are supporting Harewood Speed Hillclimb, so please support them with your business.
