THE HAREWOOD NATIONAL HILL CLIMB

INCORPORATING THE R.A.C. BRITISH HILL CLIMB CHAMPIONSHIP AND THE B.A.R.C. HILL CLIMB CHAMPIONSHIP

Sunday, 15th September, 1968

Stockton Farm, Harewood, Nr. Leeds

By kind permission of Arnold Burton, Esq.

Anyone who has previously competed at Harewood will be pleased to know that the hill has been completely resurfaced with a non-skid Hot Asphalt surface. This should make the hill both faster and safer for Competitors. In these days of rising prices we have to apologise for an increase of 10/- in the entry fee but we would ask you to look upon this as the competitor's contribution to the high cost of the new surface and we hope the added pleasure from driving up Harewood on a much safer road surface will compensate for this pin-pricking increase.

Continued overleaf

Sunday period is intended to cater for entrants who have genuine business reasons making it impossible for them to practice on the Saturday or for competitors who have mechanical breakdowns during Saturday practice. Permission will only be granted in a strictly limited number of cases. In particular, entrants who have been accepted on their declaration of ability to practice on Saturday will have to show very good cause indeed should they subsequently decide to apply for Sunday practice.

Three practice runs will be allowed to competitors who practice on Saturday, 14th September, and who report before 1 p.m. All competitors reporting after this time, or who are allowed to practice on Sunday, 15th September, will only be allowed two practice runs. Additional practice runs may be allowed on Saturday, 14th September if time permits. All competitors must travel slowly the length of the course before practice.

11. PROCEDURE (S.S.R. R.16, 17, 18)

Cars will start singly. Timing will be electrical. The course clear signal will be given by a Green Light when competitors will start in their own time. Times will be recorded from the front wheels breaking a light ray at the Start until a similar light ray is broken at the Finish.

Cars will be positioned for the start 10 cm. behind the actual starting light ray by a positioning apparatus. As they approach the line a Red light will be shown, as they take up their correct position, this light will change to Amber. If they continue to move forward the light becomes Red and Amber. When Amber alone is showing the car is positioned the correct F.I.A. distance from the start.

If at the commencement of a run the engine stalls and the rear wheels of the car do not cross the start line, this shall be deemed a false start and the competitor will be allowed another attempt to start. If however the car cannot immediately be re-started the run shall be considered failed and the car returned to the paddock.

The Finish Line will be marked by Banners on either side of the course.

For the purposes of S.S.R. R.31(a) the outer edge of the course at the finish line will be marked with a yellow line at the top of the concrete banking. A judge of fact will observe this line.

Two timed class runs will be allowed the fastest to count for the class awards. In the event of a tie the aggregate of the two runs will be invoked to determine placings.

Timed runs will be completed in the following order First Run classes 1—16 inclusive in numerical order followed by Second Run classes 1—4, 10—16 and 5—9 in numerical order. Finally the Championship Runs (see para. 12 below).

Competitors will be called forward from the Paddock in batches of approximately 20 at a time into the Assembly Area. When the course is clear the complete batch plus tender cars for the racing classes only will make their way down the course to the start. Any competitor who is not ready to start a run when called upon so to do will be deemed to have failed that run.

12. R.A.C. HILL CLIMB CHAMPIONSHIP

(S.S.R. R.28 Modified)

Entrants for the R.A.C. Hill Climb Championship must indicate this on the entry form. At the conclusion of the normal class runs, the ten Championship Entrants who have recorded the ten fastest times, irrespective of class, will be grouped together to make a further two runs each which will count as the final round of the R.A.C. Hill Climb Championship. Running order in these Championship runs will be determined by times on the class runs with the slowest competitor running first and the fastest last on each of the two runs. In the event of one of the ten fastest entrants being unable to run in the Championship Runs, his place will be taken by the next fastest entrant so that ten competitors actually start the Championship Runs.

Times recorded in the Championship runs will count towards the f.t.d. awards and trophies, the fastest in category awards and for course and class records but will NOT count towards Class awards. Only times recorded during the Championship runs will count for the Championship.

Where an entrant for the R.A.C. Hill Climb Championship has entered more than one car for the event, he must nominate to the organisers the car in which he intends to claim Championship points before the commencement of the meeting.

13. B.A.R.C. HILL CLIMB CHAMPIONSHIP

(S.S.R. R.28 Modified)

Competitors who have entered for the 1968 B.A.R.C. Hill Climb Championship must sign the declaration on the entry form if they wish points to be recorded. There will be no special runs for the B.A.R.C. Championship but performances in the R.A.C. Championship run-off will count for points as well as the normal Class Runs.

THE HILL CLIMB "BARC — B.Q."

To provide a social rendezvous for competitors and officials there will be an informal dance in the main refreshment marquee in the paddock from 9-00 p.m. until 1-00 a.m. on Saturday evening 14th September. Tickets will be on sale at 5/- each at the control bus during practice on Saturday afternoon.

A full catering service with hot and cold liquid and solid refreshments will be in operation during the dance.
