

BRITISH AUTOMOBILE RACING CLUB YORKSHIRE CENTRE THE GREENWOOD CUP MEETING

Harewood Hillclimb Championship sponsored by
The Cubicle Centre

FINAL RESULTS 15th SEPTEMBER 2007

At the Greenwood Cup meeting at Harewood Speed Hillclimb on Saturday 15 September, Airbus pilot and trainer James Blackmore secured the fastest time of the day (FTD) in his 1600cc OMS race car and in the process secured the FTD Championship. Second place went to Mark Hemmingway in the diminutive 1089cc Force race car, just three tenths of a second behind, whilst third spot went to Drew Dawson in a 1298cc DJ Firehawk race car.

Meanwhile Karl Jackson consolidated his lead in the Cubicle Centre Championship with a class record in the over 2 litre road modified class in his incredibly powerful Mitsubishi EVO RS. Karl took a quarter of a second off his own class record which was set in June.

David Morrison knocked nearly a second off the MG Group 2 class in his Midget. Whilst Dave Sturdy took a tenth of a second off the 400-2000cc Road Modified class record in the VW Polo he shared with Richard Vale, who was just over a tenth behind. Competition in this class was intense with only six tenths separating the top five drivers.

In the up to 1700cc kit car class Henry Moorhouse took a class win on his first run, before bouncing heavily off the barriers at Willow on his second run and parking the car upside down. Henry's first run left him six tenths ahead of Bob Bellerby before his ill judged exuberant drive ended his day.

Simon Green took a class win by one and a half seconds in the K T Green 2.3 litre Westfield, missing out on a class record by just two tenths of a second.

Andrew Henson managed to rebuild his Formula Ford Swift just prior to the meeting after an altercation with the barrier at the last meeting and was rewarded with a class win, just half a second ahead of Frazer Graham in a Van Diemen.

Graham Smith snatched victory in his Van Diemen sports car from Les Procter on the final run. Whilst Peter and David Newton were separated by just three tenths of a second in the Pilbeam they share.
